Assembly Instructions:

1. Your background needs to be at least 26" x 37", ironed, and ready for applique. (I recommend not trimming the background to size until you have completed all applique.)
2. Follow basic applique instructions (on page 1) using reversed applique templates.
3. Trim your applique block down to 25 1/2" x 35 3/4", ensuring the applique is centered on the block (according to the layout guide).
